

Guided tour

Join our guided tour of the museum where we give you a thorough presentation of Silvermuseet. We also tell you about the many sides of Arjeplogs history, where closer to 10 000 years of human activity and living off the nature has shaped the landscape we live in.

We make a stop in the treasury of the museum - the Silver hall - where we look closer at our collection of Sami Silver, which is the largest collection in the world. We tell you about the Sami everyday used items in our exhibition Mujttalus. At the end of the tour we invite you to the slide show "Arjeplog - Images of us".

After the slide show you can take a closer look at our exhibitions on your own, our guide and/or our reception staff are however always available for questions.
